Md Lutfur Rahman

Emerging Construction & Project Management Professional |
Master's in Construction Management (CQUniversity) | Skilled in
Project Scheduling, Cost Planning, and Civil Engineering
Greater Adelaide Area

Summary

As a Master's candidate in Construction Management at CQUniversity, I am passionate about leveraging my civil engineering background and international experience to drive successful project outcomes. With a B.Sc. in Civil Engineering from Southwest Petroleum University, China, and hands-on internships in both Australia and Bangladesh, I bring a global perspective and a strong foundation in construction processes, project scheduling, technical analysis, and team collaboration.

During my internship at Aria Project Solutions, I contributed to the Castle Hill Warehouse project by developing comprehensive schedules, collaborating on warehouse layout designs, and ensuring compliance with safety and regulatory standards. My experience at CADD Zone further strengthened my technical skills in AutoCAD and construction site management.

I am proficient in Microsoft Project, BOQ preparation, CAD, and cost planning, and am committed to continuous learning and professional growth. I thrive in cross-functional teams and enjoy tackling complex challenges to deliver efficient, high-quality project solutions.

Currently seeking opportunities to contribute my skills in construction and project management. Let's connect!

Experience

Aria Project Solutions
Construction Management Intern
March 2025 - June 2025 (4 months)
Sydney, New South Wales, Australia

- Developed and managed the construction schedule for the Castle Hill Warehouse project using Microsoft Project, ensuring on-time delivery within resource and site constraints.
- Collaborated with a multidisciplinary team to optimize warehouse layout, perform cost estimation, and implement safety protocols.
- Assisted in preparing project documentation, ensuring compliance with client and regulatory requirements.
- Enhanced skills in project scheduling, cross-team communication, and regulatory compliance.

CADD Zone

Intern

August 2017 - October 2017 (3 months)

Bangladesh

- Gained hands-on experience with AutoCAD, focusing on technical design and drawing verification.
- Conducted site visits to understand practical aspects of project management and resolve technical issues.

Education

CQUniversity

Master's of Construction Management, Civil Engineering · (November 2023 - July 2025)

Southwest Petroleum University

B.Sc. (Engr.) , Civil Engineering · (2018 - 2022)

Rangpur Polytechnic Institute

Diploma, Civil Engineering · (2013 - 2017)

Kaligonj Karim Uddin Public Pilot High School

Secondary School Certificate, Science · (2013 - 2015)
